Mazzoleni
Fondazione

Welcome

"One eye sees, the other feels."

Paul Klee

Dear Friends,

It is an honour to present the collectors issue of H Edition Summer Art 2018 - in collaboration with the Mazzoleni Art Foundation.

Art, culture and creativity are what make the world go around. They bring light where there is darkness, love where there is mere emotion and they embrace and express our deepest feelings. This magazine is bursting with pride for, and flair from, those who are part of this unique publication.

Art is such a personal thing and it can say a thousand words to each person who experiences it. When reading through I would love you to feel the energy and inspiration of the artists inside and enjoy the handpicked articles dedicated to the heroes and heroines of life.

Thank you again to my dear friends Mario & Simona Mazzoleni, who have put their trust in me to showcase their magnificent work and to The Anchorage Group and their CEO Professor Roberto Pucciano for believing that anything is possible.

So I leave you with the famous words of George Bernard Shaw
"One uses a glass mirror to see one's face; yet one uses works of art to see one's soul".

MAZZOLENI ART FOUNDATION

MAZZOLENI ART FOUNDATION

Mazzoleni Art Foundation has always dealt with the enhancement of Made in Italy through the promotion of art, culture and beauty.

Italy is synonymous of art and history, and the artistic beauties are manifold. Every part of the country reserves endless surprises.

Not only the promotion of art but, above all, the exaltation of beauty, which is expressed in different forms.

In fact, the historical and cultural beauty of Italy is vast and the fields are different.

The Mazzoleni Foundation knows how to exalt these beauties and for years it has been following and promoting Made in Italy through prestigious events in the various spaces that it manages in Bergamo, in Sardinia and in other elegant and refined locations.

Great attention also to the social aspect, art becomes therapy and support for the weakest.

A great commitment, carried out with professionalism and passion, which brings the Mazzoleni Foundation to be a reality of the highest order in the national scene.
